

Packing List

Crowsnest Lake Bible Camp: Lake Site Family Camp

Required Items:

We have found that camp works best when everyone comes adequately prepared for their time at camp. Therefore, it is essential that campers come with **all** items on the “Required Items” list. Especially note the need for proper footwear, warm outerwear and an adequate sleeping bag. Our mountain weather is very unpredictable; cold weather, snow and rain are possibilities all must be prepared for!

- Clothing for all members of your household
 - 1 complete change of clothes for at least every 2 days spent at camp.
 - Bring at least 1 pair of pants that are NOT jeans (i.e., sweats, nylon, or fleece pants) for hikes (Denim, once it gets wet, is cold and takes long to dry)

Do Not Bring:

Just as we have found that camp works best when everyone comes adequately prepared, there are some other things that make camp worse if you bring them! Therefore, we ask that campers be mindful and thoughtful in their packing. We have especially found that the below items are harmful or distracting from the type of community that we want to be.

Some of these items include: Personal electronic devices (iPods, mp3 players, cell phones, etc.), pets, tobacco products, alcohol, drugs, junk food or extra snacks (unless on a restricted diet), money or other valuables, anything else that you think would be harmful or distracting from the deep integrated life-giving community that we strive to be.

IMPORTANT: If you have pets, please make OTHER arrangements for them as we are UNABLE to accommodate pets on Camp property. Thanks.
